

# TITANIUM BLACK

Inspired by the ninth most abundant element in the earth's crust – particularly strong, powerful and lightweight. The black glazing of the stoneware does not consist of a uniform solid color, but it varies both in colour and texture - Titanium black – is the new RAW glaze. Set a sophisticated, unique, raw, deep black in black table, or mix it up.

# METALLIC BROWN

Turns your mind to a late summer's evening by the lake. The dragonfly's sparkling body reflecting in the water is the inspiration for Metallic Brown, where the deep and raw brown colour plays freely with the sparkling and reactive gold glazing. Set a sparkling RAW table with Metallic Brown or play with the colours from Northern Green and Midnight Blue, which brings the senses into play.
