# DAKOTA BLACK

What's special about this Dakota range, is its matte black finish. The surface isn't entirely smooth, but has a pleasant, very fine grain. On top of that, the stoneware collection features a dynamic wavy relief pattern. Besides the usual plates, bowls and mugs, this extended range also has several jugs, storage jars, pepper and salt shakers and an oil bottle, allowing you to dress your entire table in the same style.

# DIVINE

The Divine range embraces the beauty of imperfection. This collection explores a unique aesthetic where imperfection is turned into art, and where roughness and refinement merge. Each piece is imbued with character, with a rough feel and appearance on the inside. This is achieved through a reactive glaze, which creates a fascinating and unique effect. Fine lines and dots radiate outwards, like a big bang of whimsical energy that vibrates the centre of each piece.

# TEA

Cosy&Trendy's new cast iron teapots turn every cup of tea into a special feel-good moment. All teapots are pure Belgian design, but also bring to mind the ancient Japanese tea ceremonies. A cast iron teapot is extremely heat resistant and keeps your tea nice and hot for considerably longer. All models come with a convenient non-spill spout, a folding handle and a stainless steel strainer for loose leaf tea.
