

Artilugis®

**Unique
tableware
for chefs**

Artilugis is a Barcelona atelier devoted to creating meticulously handcrafted tableware for the world's most elevated dining rooms.

Established in 2021 by product designer Adrià Funosas, our pieces reflect a blend between traditional craftsmanship and modern design techniques creating a singular style that elevates the dining experience, uniting timeless elegance with contemporary appeal.

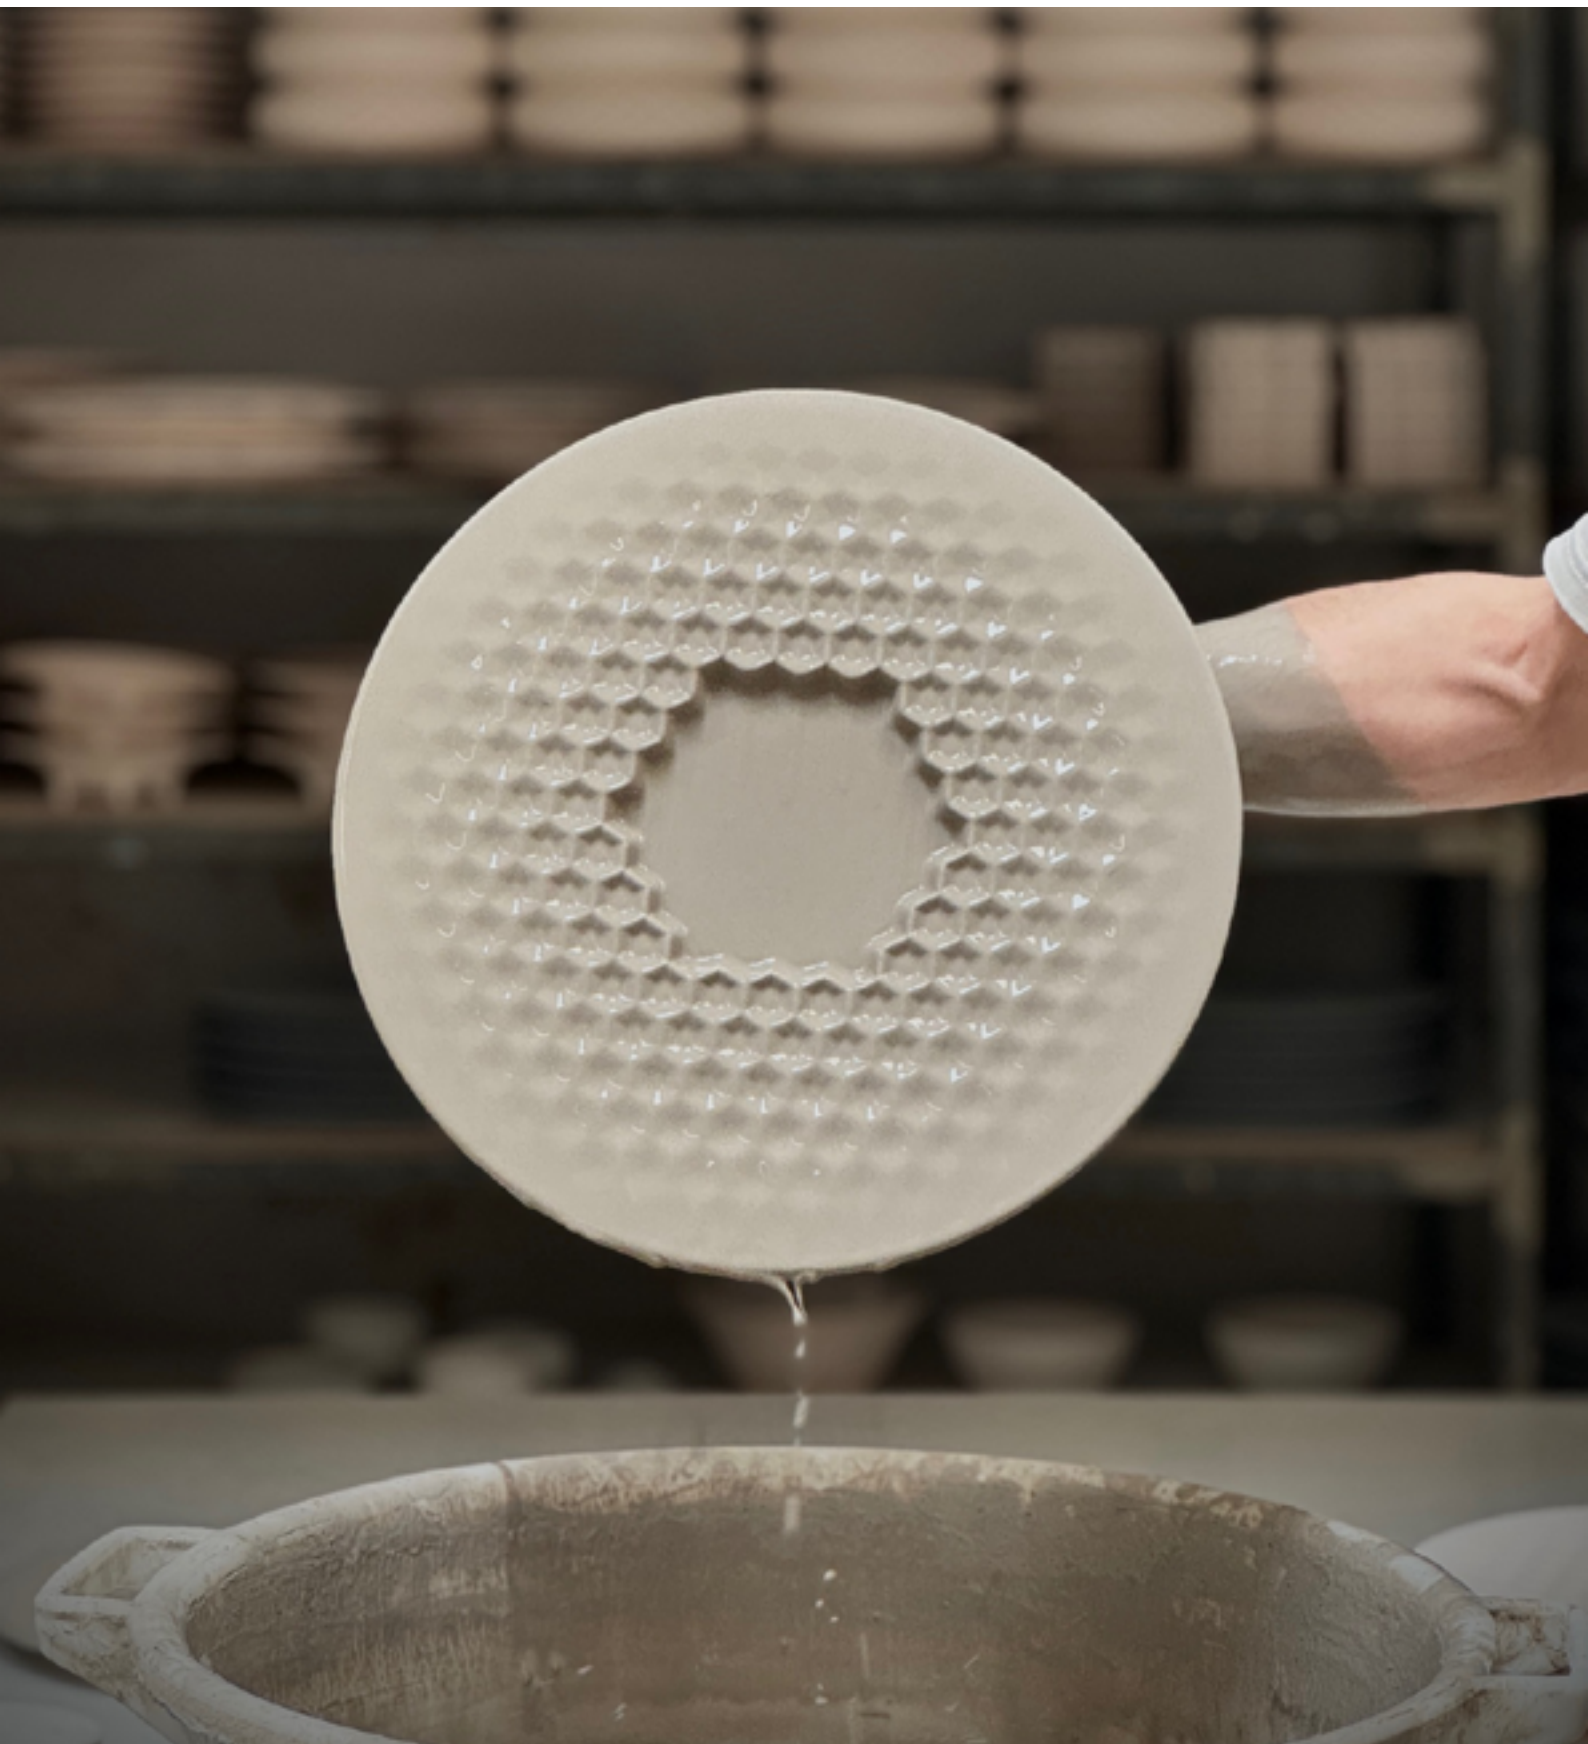

Every piece is designed and produced entirely in-house, a fully controlled process that ensures exceptional precision, and quality.

We understand that excellence in the world of high-end cuisine is not just about taste, it's equally about presentation.

Our creations serve as the canvas for culinary artistry, and as such, they are designed to be as unique and exceptional as the dishes they present.

We aim to be the catalysts for inspiration in professional kitchens globally.

CONTENTS
